Matla Park, Lyons NT

Project Notes

We were approached by Darwin City Council to install bright and colourful shade sails across numerous suburbs of Darwin which would provide plenty of sun protection and would withstand the tropical weather and extreme winds. Installation was carried out in 8 parks in the suburbs of Darwin City, Lyons, Marrara, Rapid Creek, Stuart Park and Wulagi on time and within budget. Our work was put to the test in March 2018 with Cyclone Marcus, however all structures withstood the storms well, without any damage and continue to provide shade and sun protection for the local communities.

Antony Memorial Park, Stuart Park, NT
