Project Notes

“Central Industries was engaged by West Arnhem Regional Council to design and construct a shade system for the Maningrida Community Pool, in remote Northern Territory. From our initial communications, through the design stages and to the completion of this complex and challenging project, we have been satisfied with all aspects of our relationship with Central Industries. They have communicated consistently, and all design and construction issues were resolved ahead of time to ensure the whole project ran smoothly”.

Istvan Nemeth, Assets Manager at WARC
